

Digital Boards Online Consumer Network Launches
For Immediate Release

Digital-Boards.com

The Consumer Network

Wheatfield, IN

February 19, 2007

Synergy DTI, Inc is pleased to announce the opening of a one of a kind online consumer network, www.digital-boards.com.

Digital-Boards.com is an online consumer network, providing over 100 individual categories, giving the consumer an easy way to find online providers of goods and services that have passed our grading system to help insure that the websites listed are consumer friendly.

President of Synergy DTI, Tanya Martin, stated, "Digital-Boards.com has been in production for almost a year, as we wanted to insure that we were providing a safe and friendly online consumer network. A lot of time and energy went into this project, and we feel we have met all the goals we set for ourselves."

Some of the features that sets Digital-Boards.com apart from other online consumer networks is the inclusion of a directory, forum, blog and newsletter which allows members to not only evaluate individual ad sponsors, but to interact with other members that may have experiences with the ad sponsors, and to interact with the ad sponsors themselves.

"Digital-Boards.com has implemented a scoring system that ad sponsors must pass to insure consumer confidence. Consumers will know that any service or product provider that is a sponsor on Digital-Boards.com, is one that can be trusted," Martin added.

The community will provide many exclusive articles on online scams, spam, virus and consumer alerts. It also includes a help section that members can go to seek assistance with common computer, Internet and online shopping problems. Digital-Boards.com will soon become your "go to" spot for any of your Internet needs.

As an incentive to getting consumer participation in the Digital-Boards.com Network, there will be ongoing contests sponsored both by Digital-Boards.com and ad sponsors. Our first contest simply requires that consumers sign up and make an introductory post in the forum of their choice. The prize is a \$50 Amazon.com gift certificate.
