

Press Release - For Immediate Use

March 14th 2007 Fort Lauderdale Florida

Canadian Government Upgrades: The regional Government of Nunavut (GN) in Canada today upgraded its existing ePurchasing TBA-*Power II* system by the addition of another 300 user licenses plus on-going technical support – The system is used by the GN for electronic requisitioning, approvals, competitive bid and award and automatic raising of PO's.

Mikrofax's Michael Petter said "The GN are now ready to start reaping the rewards of investing in eProcurement by rolling out the system to their diverse user population at large - This is another large commitment by the GN and we are equally committed to providing them with the high level of service and support they have come to expect from us". This several hundred thousand dollar system upgrade was delivered electronically and made available for immediate use.

Mikrofax Software was founded in London in 1988 and has grown to become a leading provider of eProcurement software solutions, purchasing systems, and workflow management tools.
