

2007 QUALITY TRAINING COURSES

Software Engineering Institute (SEI) Intro to CMMI 1.2

Intro to CMMI 1.2 is an official Software Engineering Institute (SEI) course that introduces participants to Capability Maturity Model Integration (CMMI) fundamental concepts. CMMI is a process improvement method that provides organizations with effective methodologies. The CMMI models support enterprise-wide improvements by integrating best practices and proven process improvement tools. Emphasis is placed on understanding process areas and the application of CMMI models into real-world process improvement programs.

Dates:

April 11-13

September 19-21

June 6-8

October 22-24

August 1-3

December 5-7

ISO 9001:2000 Lead Auditor

In collaboration with Bsi Management Systems, ITG offers this five day RABQSA certified course which teaches the principles of effective quality management systems and process audits in accordance with the ISO 9000 series of standards. Experienced instructors guide students through the entire audit process, from managing an audit program to reporting audit results. Students learn auditing skills through formal classroom tutorials, role-playing, group workshops, and open forum discussions. Students successfully completing this course (by passing the continual evaluation and the written examination) fulfill the RABQSA training requirements for QMS Auditor and QMS Lead Auditor certification.

Dates: April 16-20, 2007 and August 20-24, 2007

ISO 9001:2000 Internal Quality Systems Auditor

In collaboration with Bsi Management Systems, ITG offers this three day RABQSA certified course which teaches the principles and practices of effective internal audits in accordance with the ISO 9000 series of standards. Experienced instructors guide students through standard internal audits that are required for a quality management system based on ISO 9001:2000. Students gain necessary auditing skills through formal classroom tutorials, practical role-playing, group workshops, and open forum discussions. Students successfully completing this course (by passing the continual evaluation and the written examination) fulfill the RABQSA training requirements for an Internal Quality Systems Auditor.

Dates: May 16-18, 2007 and November 7-9, 2007
