

# Baumgarten's

Office and School Supplies Since 1948

## Green Shipping

Baumgarten's partnership with American Forests is creating a successful reforestation project to assist our planet by cleaning the air and sequestering CO<sub>2</sub>, a 'Greenhouse Gas' associated with climate change. With the help of its customers, Baumgarten's is raising thousands of dollars and planting thousands of trees in the United States and Canada.

Adding just one tree to each order is the equivalent of NOT using 25 gallons of gas or like recycling 1700 aluminum cans. Together, we keep 685 lbs. of CO<sub>2</sub> from accumulating in our atmosphere.

We invite you to participate in our voluntary program by adding just one dollar to each order.

**Together we are in the green.**
