

M5T MC Receives the Communications Solutions 2006 Product of the Year Award

M5T MC Fixed Mobile Convergence (FMC) Applications distinguished for its technological advancement and application refinements

Sherbrooke, Quebec, Canada, May 8, 2007 - M5T, the leading provider of software solutions for secure real-time multimedia communications over IP, announced today that Technology Marketing Corporation's (TMC) *Communications Solutions* (www.tmcnet.com/comsol) has named the M5T MC as a recipient of a 2006 Product of the Year Award.

"Each year the *Communications Solutions* magazine bestows Product of the Year awards on companies that have demonstrated excellence in technological advancement and application refinements," said Rich Tehrani, TMC President and Group Editor-in-Chief of *Communications Solutions*. "This year, M5T demonstrated to the editors of *Communications Solutions* that their M5T MC Fixed Mobile Convergence Application has gone the extra mile to help improve both the customer experience and the ROI for the companies that use them."

The seventh annual *Communications Solutions* Product of the Year Award recognizes the vision, leadership, and attention to detail that are the hallmarks of the prestigious award. The most innovative products and services brought to market in 2006 have been selected as recipients of this year's *Communications Solutions* Product of the Year Award for their groundbreaking achievement.

"At M5T we pride ourselves in not only offering our customers a family of solutions and applications that are second-to-none, but we also offer the expertise of a team of outstanding engineers and support personnel that will work with the customer to make sure that

the application will meet their every need," explained Samuel Guénette, General Manager of M5T. "As a result of the efforts of our highly motivated employees, M5T has reached a point where our new M5T MC answers the FMC market needs today, and are ready to respond to future developments."

"The Product of the Year awards signifies the best in the industry. Winning companies like M5T have demonstrated a commitment to quality and the further development of the communications industry through their products or services," stated Patrick Barnard, TMCnet assignment editor and head of the judging committee. "With a record number of entries, choosing winners was challenging. High honours are deserving of these winners. My congratulations to M5T and I look forward to seeing more innovative solutions from them as they continue to contribute to the future of the communications industry."

About the M5T MC Fixed Mobile Convergence Application

Optimised for wireless devices, the M5T MC is ideal for carriers, alternative service providers, and cable operators who wish to offer wireless VoIP services. It is also ideal for softswitch and network equipment providers who want to add Wi-Fi and wireless broadband mobility to their product offerings.

About TMC
