

**The choice is yours.
Choose to be prepared.**

“Improving our national preparedness is not a job for the professionals—law enforcement, firefighters and others. All Americans should begin a process of learning about potential threats so we are better prepared to react....”

- Tom Ridge, Director of Homeland Security

CPR - AED - First Aid - More

If you are looking for a way to ensure your school or workplace is trained to handle emergency situations, health and safety education for employees is a necessity.

BLS/ACLS/PALS

At Safety On Site Training we offer American Heart Association CPR courses for the lay public and for healthcare providers, in Basic Life Support (BLS), Advanced Cardiac Life Support (ACLS) and Pediatric Advanced Life Support (PALS).

Safety On Site Training will:

- Customize classes to your work environment.
- Help your employees to know how to handle medical emergencies, natural and man-made disasters.
- Provide ongoing support to those companies who use our services on a continual basis.

Everything you need from one company.

AED Sales, Training and Medical Direction

Safety On Site Training is proud to be a Zoll distributor. We sell all brands of AEDs, as well as offer training, Public Access Defibrillation (PAD) programs and Medical Direction.

Our mission is to decrease premature death by implementing emergency response programs with trained individuals who are confident and courageous enough to act during an emergency.

We come to you!

We do offer courses at our location, but Safety On Site Training will come to your workplace and offer many services over and above what has already been described.
