## ***For Immediate Release***

### **Amadeus Consulting Ranked Among Fastest Growing Companies by the Boulder County Business Report**

**Boulder, Colo., July 14, 2007**

Amadeus Consulting, a leading custom software development company, today announced it ranked 8<sup>th</sup> on the prestigious Mercury 100 list of the fastest-growing private companies in Boulder and Broomfield counties. The annual award, presented by the Boulder County Business Report, honors the entrepreneurial achievements of local businesses.

The awards were presented at a reception held at the historic Boulder Theater for the winning companies. Amadeus was listed in the large company category based on two-year revenue growth. "We are honored to be listed among the most successful businesses in our community," stated Lisa Calkins, President of Amadeus Consulting. "It acknowledges the commitment of our development team to providing outstanding service and delivering successful software solutions to our clients."

In addition, Amadeus was also nominated for the Colorado Software and Internet Association's (CSIA) Apex Award for Distinguished Service, recognizing the top technology companies in Colorado for their innovation and contributions to their industry and community.

In recent years, Amadeus has experienced rapid growth in its core business of project-based custom software development. With a consistent track record of success on challenging custom software projects, Amadeus has established itself as one of the most accomplished software consulting companies in the country.

---
