## **BINDAGRAPHICS PURCHASES ART LAMINATING & FINISHING**

*Leading Trade Bindery expands offerings with acquisition of Atlanta-based Trade Finisher*

Baltimore, MD – Bindagraphics, Inc., one of the nation's leading providers of post-press services, recently purchased Art Laminating & Finishing, Inc., a post-press finishing company located in Atlanta, Georgia.

"Art Laminating & Finishing has a great reputation in the market, and their range of services complements Bindagraphics," said Anson.

The new company will remain in Atlanta and operate as "Art Laminating & Finishing, LLC". The website will remain at [www.artlaminating.com](http://www.artlaminating.com).

Art Laminating & Finishing is a fully automated post-press finisher that specializes in high quality custom finishing including high-speed diecutting, foil stamping, embossing, package converting, film laminating, UV coating, straight-line gluing, remoistenable gluing, mounting, tabbing, and collating.

Additionally, the company's Special Projects department provides custom finishing solutions for the graphic designer, digital imager, exhibit and display designer, and anyone else needing quick-turn finishing such as large format mounting, laminating, framing, contour cutting, and drop shipping. The company's capabilities also include design and prototyping.

Marty Anson, President and CEO of Bindagraphics, said the purchase of Art Laminating & Finishing will supplement the offerings of Bindagraphics. "Art Laminating & Finishing has a great reputation in the market, and their range of services complements Bindagraphics," said Anson. "We're already gaining a foothold in this market with the continued growth of Bindagraphics in Baltimore and Bindagraphics South in High Point, North Carolina, and we are confident we will expand that success with Art Laminating & Finishing."

"Our plan is to continue to operate Art Laminating & Finishing as the leading partner to commercial printers in the southeast region, and to enhance the services we provide in Atlanta by making available the bindery capabilities that Bindagraphics offers in High Point and Baltimore," concluded Anson.

**About Bindagraphics:** Bindagraphics is a full service trade binder, finisher, and specialty packaging provider headquartered in Baltimore, Maryland. The company is ranked sixth in the nation in size and boasts more services than any other trade bindery in the world. Highlights include six perfect binding lines with up to 36 pockets, fully-automated mechanical binding, folding, gluing, die cutting, foil stamping, embossing, ink jet imaging and more. Marty Anson, President and CEO of Bindagraphics, can be reached at (800) 326-0800 or [manson@bindagraphics.com](mailto:manson@bindagraphics.com).
