

Mediatrix and Brekeke Announce Interoperability of Mediatrix VoIP Gateway Solution and Brekeke SIP Software Technology

Industry leading VoIP companies cooperate on IP PBX – VoIP Gateway interoperability

San Mateo, CALIFORNIA and Sherbrooke, QUEBEC, August 7, 2007 – Brekeke Software, Inc., developer and manufacturer of VoIP telephones and Mediatrix Telecom, the leader in Voice over Internet Protocol (VoIP) access devices and gateways announced today the successful interoperability of the Mediatrix Series of VoIP Gateways with Brekeke's award-winning SIP-based IP PBX, to create a seamless stand alone solution.

These interoperability tests and detailed product qualification processes ensure that the advanced Brekeke IP PBX and the Mediatrix VoIP Gateway will seamlessly operate together in any telecommunications network environment. Customers will

benefit from having a set of solutions that will minimize the labor and expense requirements involved in implementing non-compatible IP PBX and VoIP Gateway devices.

"We are pleased to be working closely with Brekeke - their record of success, outstanding reputation, and expertise in VoIP technology and deployment makes them an ideal partner for the Mediatrix line of VoIP Gateways and Access Devices," said Philippe Babin, Director of Product Line Management for Mediatrix. "Interoperability with Brekeke is a positive stepping stone to fuel Mediatrix's corporate strategy of providing fully integrated solutions that will meet the needs of both enterprises and service providers."

Mediatrix advanced VoIP access devices and gateways provide an ideal migration path for end users wishing to protect their current CPE investment, while migrating to a converged IP network. Mediatrix products and solutions are widely interoperable and have received commercial endorsement from some of the world's leading telecommunications equipment manufacturers as well as from large telecommunication carriers.

"This long awaited validation will inspire greater confidence among our many users who are already benefitting from the integration of Mediatrix's products with our SIP software products," said Shin Yamada, CEO of Brekeke Software. "Mediatrix is recognized as a leader in VoIP Gateways, and with this official validation of interoperability we are pleased to actively promote Mediatrix's Gateways and Access Devices to our highly successful strategic partners."

Brekeke's award-winning product, Brekeke PBX is a full-featured IP-PBX system, easily managed through a Web-based administrative interface. Brekeke PBX is feature-rich and fully scalable to meet the needs of any size organization. Brekeke PBX solutions are flexible and affordable, from Basic with traditional telephony features, to Pro which includes a full set of Call Center features.

About Brekeke

Brekeke is a growing leader in the SIP communications platform market. Since 2002 Brekeke is located and headquartered in San Mateo, California. Brekeke offers SIP communications software that enables IP-based communications for businesses of all sizes. Brekeke offers innovative technologies with Brekeke PBX, Brekeke SIP Server, Brekeke JTAPI SDK, and the

newly introduced Brekeke PBX Active Library (PAL) for .NET developers. Our design architecture provides feature rich, user-friendly products, and simple installation. For more information, please visit www.brekeke.com.

About Mediatix Telecom

Mediatix develops and markets advanced VoIP access devices, gateways, routers, and value-added software enhancements for the enterprise, SOHO, and residential markets. Its products provide an ideal migration path for end users wishing to protect their current CPE investment (analog/digital phones, fax machines, PBX and Key Systems) while migrating to a converged IP network. Mediatix products and solutions are widely interoperable and have received commercial endorsement from some of the world's leading manufacturers of telecommunications equipment as well as from large telecommunication carriers. Mediatix is a wholly owned division of Media5 Corporation, a high technology holding company based in the Montreal area, in Canada. Media5 Corporation also owns M5T, a software provider focused on delivering the latest in SIP software technologies and security solutions to companies developing applications for real-time multimedia communications over IP. Mediatix has corporate offices in the Sherbrooke area, in Canada and regional offices in the United States, Europe, Latin America and Asia. For more information, please visit www.mediatix.com.
