

*POWERING A CLEANER WORLD*

*Unique Technologies, Strong Synergies*  
*Complete Solutions*

**THE WALL STREET ANALYST FORUM**

**August 15-16, 2007**

**New York City, New York**

# What is *VISTA* about?

Vista, a unique private technology holding company which devotes itself to the creation and expansion of businesses with innovative products, technologies and services over the globe.

**V** – Vision

**I** – Integrity

**S** – Science

**T** – Technology

**A** – Alternative Fuels & Energy

## *Vista's View of the World Resources*

- We live in a world where natural resources are growing scarce.
- Today's broadly used methods and technologies are outdated, inefficient, and often obsolete.
- Serious air, water, light, and power issues require cutting-edge solutions – now.
- Today's attention is on wind (class 4 or higher), geothermal, solar and nuclear technologies.
- These technologies do not address the growing problems of waste and latent energy in waste.
- It is time now to create a healthier, cleaner, and “greener” world.

## *What VISTA Offers*

Proven innovative products, technologies and services that protect and heal our environment in a manner that is environmentally conscious and sound:

- *High Octane Alcohol from Synthesis Gas*
- *Energy Saving and Full Spectrum Lights*
- *Low Wind Speed Generators*
- *Efficient Power Generation Equipment*
- *Recent Ownership Interest in Nathaniel Energy*

# *What Nathaniel Energy brings to VISTA!*

Small cap publicly traded full reporting company

- OTC BB (NECX.OB), formed in 1998

Gasifier's

– gasification technology units developed & tested for commercial applications over 15 years

State-licensed tire fuel processing facility

- produces Tire Derived Fuel (TDF)

Broad corporate vision of commercializing its patented gasification technology on a global basis supported by a new management team.

## *Nathaniel Energy New Executive Team*

### **Barry J. Kemble (CEO)**

*25+ years of operations and business management*

*International business experience*

*Start-up, turn around, and large company background*

*Design and implementation of corporate infrastructures & governance*

*Product management & commercialization expertise*

### **Timothy Peach (CFO)**

*25+ years of finance, administration and operations*

*Senior level finance executive with international technology companies*

*Hands on corporate restructuring and operation improvement background*

*Successful IPO experience*

*CPA/MBA*

### **Vista International (Project Development)**

*18+ years in development of projects on a global basis*

*Extensive experience in raising capital for and developing international and domestic markets for innovative technologies*

*Potential project pipeline in \$ Billion utilizing Vista International technologies*

*Effective domestic and international governmental contacts*

# *The New Nathaniel Energy Expectations*

- Change the Name:
  - *Vista International Technologies, Inc.*
- New Controlling Interest and Management
  - *Vista International, Inc. specializing in cutting edge renewable and energy saving technologies to offer one total solution*
- New Vision
  - *Focus on renewable energy to reduce our global energy and waste problems*
  - *Partner with US firms to manufacture products for global distribution, creating US jobs and exports*
  - *Link technologies synergistically that provide a competitive advantage over other waste disposal and renewable energy technology companies*

# Nathaniel Energy Gasification

- The Thermal Gasifier™ efficiently converts hydro-carbon based waste into thermal energy
- Exceeds EPA and EU Emission Standards
- Multiple by-products (power, steam, chemicals, synthesis gas)
- Modular- application to meet fuel availability
- Cost competitive

- *You are either the biggest or you are unique, we choose to be unique*
- *We build smaller units which meet our commercial and industrial client needs*

# Nathaniel Energy Thermal Gasifier™

- Proprietary patented technology.
  - Total of Six U.S. Patents Issued Over 20 Years
  - One U.S. & One European Patent Pending
- Multi-stage gasification system
- Creates economical clean electrical and thermal energy
- 23 Thermal Gasifier's™ were tested, built and/or sold around the world
- Engineering multiple model units including a portable unit

# Nathaniel Energy

## Gasification - Italy Commercial Scale

- Two 1800 BHP Thermal Gasifier
  - Capable of producing 6.6MW
  - Enel Purchasing 6MW

# Nathaniel Energy

## Fuel Processing Division - Tires

- Licensed Tire Recycling, Processing & Storage Facility
  - Processes waste tires into Tire Derived Fuel (TDF)
  - Sales of TDF to regional cement kilns & paper mills
  - 100% of production is sold
  - Currently the only state licensed facility in Dallas/Ft. Worth area for production and storage
  - Expect in 2007/2008 to combine gasification for energy and fuel production

# Expected Synergies from Combined Technologies

- A Vista partner provides technology that converts synthesis gas into a high grade alcohol
- Nathaniel Energy's gasification process expected to be engineered to produce alcohol
- Market value greater than ethanol due to higher octane rating
- Mixed or blended with existing petroleum based fuels results in lower emissions, cleaner air, reduced oil dependence
- Can be used as straight fuel for automobiles with minor engine adjustments
- EPA approved

## *Vista's Investment into Nathaniel Energy*

- Expected \$2,000,000 initial investment in NECX
- Over two years of business development in the waste-to-energy/fuels market in these following countries:
  - China
  - Mexico
  - Europe
  - West Indies
  - USA
- Project
  - Nathaniel Energy gasification technology expected to be used in project in Li Xian, China (south east of Shanghai) processing approximately 450K tons of waste straw per year (1,250 tons per day) and 250 MSW TPD. This project is expected to be a build, own and operate project with cost of approximately \$170M.

## *Strategic Partners via its Affiliate, Vista International*

### Who:

Wilcox/Devere – Engineering, Design, Construction, Manufacturing

Principle offices in Michigan and Arizona

More than 40 years in business

More than 1000 employees

International project experience

Experience with constructing ethanol plants, water treatment facilities

APP – Asia Pacific Partnership – US, China, Korea, Japan, Australia, India

Partners include several NYSE firms

Purpose to develop sustainable economies within these countries

McKenna, Aldridge & Long - Corporate Counsel - International and Domestic

# In Closing

## Contact Information

Our Vision at the “**New Nathaniel Energy**” in conjunction with our affiliate Vista International is to be a force for economic growth and provide a legacy of a healthier, cleaner and safer environment. We do this with proven environmentally safe energy and energy related technologies.

We wish to thank you for allowing us to present to you the “**New Nathaniel Energy**” an affiliate of Vista International, Inc.
