Arthur Y. Cooper, CFP®

Helping people make the right retirement plans and investment decisions are certainly not new to Arthur Cooper. He has been in the financial services industry for 20 years and founded Cooper McManus, an Irvine-based financial advisory and wealth management firm, in 1999. Cooper specializes in providing comprehensive financial planning, estate planning and asset management services.

Cooper considers himself an educator, teaching his clients to reach a new level of financial knowledge and understanding. He is adamant that people need to understand their current financial situation in order to make appropriate decisions concerning their future financial condition. He also believes in doing everything in his power to keep people focused on where they want to go, advise them on how to get there, and continually remind them of the importance of maintaining a disciplined approach to realizing their dreams.

Cooper attended California State University in Fullerton, and went on to fulfill the requirements to become a CERTIFIED FINANCIAL PLANNER™ professional. He has been a regional vice-president and district manager for three financial services companies, training other financial advisors and overseeing their careers, ethics, and performance.

Native to Southern California, Cooper is family- and community-oriented, and is involved in various Orange County charities. He stands by the importance of investing not just in one's own future but in society's as well. It's no wonder that Cooper is a person who makes many friends as he runs his business and contributes to the community.
