Emerio Celebrates 10<sup>th</sup> Anniversary

**Singapore, 02 October 2007** – Emerio Corporation, a leading IT services company, today celebrates a decade of providing service excellence to its customers. Anchored in Asia, with a growing global presence, Emerio has seen phenomenal growth over the past few years. Going forward, Emerio plans to focus on high-demand areas including application and infrastructure

management services.

Started in 1997 by Chief Executive Officer Harish Nim and four colleagues, with S\$12,000 as capital, today the company has over 1300 employees. These are spread over 14 countries, namely, Australia, China, Germany, Hong Kong, India, Malaysia, Indonesia, Pakistan, Philippines, Singapore, Switzerland, Thailand, the UK, and the USA. In a highly competitive market, Emerio has established itself as

a long-term partner for companies, with an 80 percent customer retention rate.

Over the past year alone, the company has received recognition in several forums. In November 2006, Emerio was awarded the ASME-Lianhe Zaobao Singapore Promising Brand Award. This year, it was named one of the top IT Outsourcers in a global ranking survey conducted by the Aberdeen Group. It also secured a place as a "Rising Star" in the International Association of Outsourcing

Providers' annual ranking of the world's top 100 outsourcing providers. The list was published in FORTUNE Magazine in April this year.

Harish Nim, named Entrepreneur of the Year in 2005, expressed his pride in how far the company has come. "It has been an amazing journey. As we celebrate turning 10, we'd like to take this opportunity to express our heartfelt gratitude to our customers and partners who have supported us in the years past, and look forward to continued success in the years ahead," he said.

Customers include well-known FORTUNE 500 companies, industry leaders and government clients. They have also provided extensive services to customers in various other sectors like hospitality, social services, healthcare, and transportation.

The company plans to double its current revenues over the next two years by strengthening its presence in Singapore while growing its footprint in Malaysia, Philippines, and Europe. Emerio recently invested in Cyberjaya in Malaysia and will construct a state-of-the-art global delivery centre for application management and infrastructure management services. The centre will sit on 5.1 acres of land to support its global customer base.

Similarly, in the Philippines, Emerio has earmarked space in Manila for its second Southeast Asian centre. With a recently established office in Germany, Emerio hopes to demonstrate commitment to its customers in Europe.

## **About Emerio Corporation**

Emerio Corporation (<a href="www.emeriocorp.com">www.emeriocorp.com</a>) is a rapidly growing global consulting and IT services company headquartered in Singapore. With its focus on Systems Integration and Managed, Software and Professional Services, the company adds value to its customers' businesses by

combining and implementing the latest technologies and services. Today, Emerio is supported by 1300 employees spread across 14 countries (Australia, China, Germany, Hong Kong, India, Malaysia, Indonesia, Pakistan, Philippines, Singapore, Switzerland, Thailand, UK and USA). Emerio's track record of successful deliveries has been the single pivotal factor for its growth - reflected in its customer retention track record, with over 80% repeat orders. Since its inception in 1997, some of the world's leading companies in varied industries like financial services, logistics and manufacturing have leveraged Emerio's globally networked delivery model to maximize their returns.
