WorkWise Inc., Presents:

ATLAS - *ERP FINALLY PRICED FOR THE BUYER!*

Manufacturers need to invest in their plant, equipment, marketing and people to grow their business. These companies have neither the time nor the additional capital to expend on long, complicated and expensive ERP implementations that don't provide a return on investment. That's where WorkWise and our new ATLAS program can help.

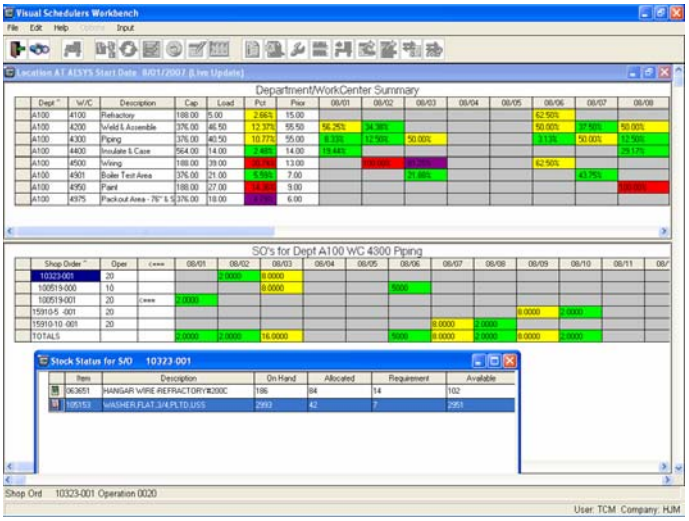
ATLAS/30 FOR ONLY $4995/MO OR ATLAS/60 FOR ONLY $7995/MO

WorkWise, Inc. has been providing manufacturers with world-class ERP solutions and implementations for almost 30 years. ATLAS is a comprehensive, ERP offering that provides businesses with everything needed for information management and pro-active decision making. All for a fraction of the cost and implemented in a fraction of the time compared to competitive solutions - and for one low price paid over a three year period with **0% financing**. ATLAS truly is a **COMPLETE ERP** solution including additional tools needed by today's manufacturers to stay ahead of their competition such as, Business Intelligence, CRM and Electronic Document Management.

ATLAS lets Manufacturers focus on their business NOT their business software!

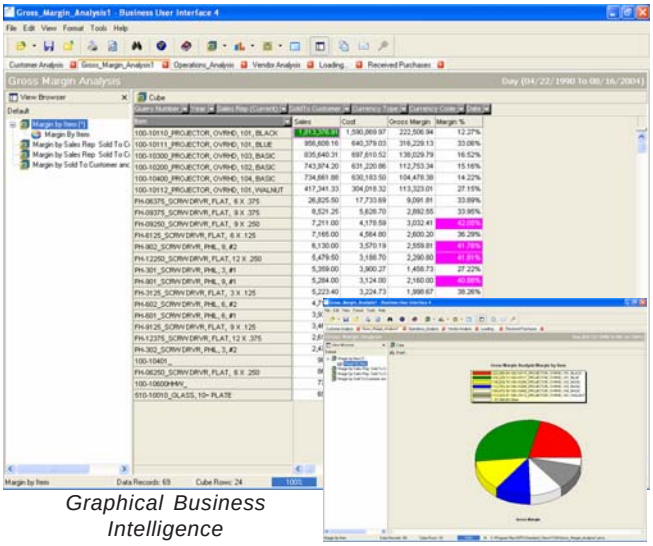
ATLAS/30 – 30 User Complete ERP System including support & implementation $4995/mo for 36 months - 0% Interest!

ATLAS/60 – 60 user Complete ERP System including support & Implementation $7995/mo for 36 months - 0% Interest!



Visual Drag & Drop Scheduling

WorkWise has significantly invested in the latest technologies to ensure that long-lasting, powerful products are always available to our customers. For example, our offerings provide web-based applications such as eProduction and eWarehouse for shop floor movements and production reporting and a Lean Manufacturing Module. As our customers' needs and industry changes occur, WorkWise is positioned to take advantage of new technologies that will enable our customers to respond to those changes.



Graphical Business Intelligence

Whether you produce a make-to-order / heavily engineered product, a quick turn-around volume based spares line, or both, WorkWise provides the single source for all your ERP needs:

- **Complete support for Lean Implementation including Kanban and Direct Fulfillment**
- **Instantaneous tracking of Key Performance Indicators**
- **Simple, web-based data collection and inventory control systems**
- **Graphical Drag and Drop Scheduling**
- **World Class Product Configuration Tools**
