JobOps Launches New Web site Design at jobops.com

Minneapolis, MN, October 15, 2007—JobOps, a Job Management Software solution developed for Sage MAS 90 and Sage MAS 200 ERP systems, announced today that it has launched a new Web site located at www.jobops.com. The purpose of the new Web site design was to better serve its partners and clients by improving on-line identity, including a new look and simpler navigation tools. In addition to a striking and more user-friendly graphics approach, the Web site offers in-depth information about its flagship line of JobOps job management solutions that integrate with Sage MAS 90 and Sage MAS 200 ERP solutions. Its user-friendly layout and navigation also features enhanced content areas and new tools such as white papers and demonstrations. The JobOps Partner Portal is also being enhanced to include many turnkey marketing tools.

“We have seen a substantial increase in daily activity and visitor stay time at our site,” noted Randy Stone, JobOps Director of Sales and Business Development. “The volume of people requesting our demonstrations and white papers is up substantially. This is the first of many enhancements we will be making to provide better content and tools for our partners and their customers.”

About JobOps and Synergistic Software
