

# Cyfin Proxy

## Effective Internet Monitoring for Your Organization

An Internet monitoring proxy server, Cyfin Proxy combines Web access monitoring with the industry's best user-activity reporting in one high-performance, low-cost solution. Ideal for small to mid-size businesses networks, Cyfin Proxy doesn't require a separate proxy, firewall or caching appliance. There's nothing to install but software — making effective Web-use management easier than ever before.

### Key Features

- Monitors Internet access in 81 categories
- Categories can be rated for acceptability based on your Web-use policy
- Monitors Web use by individual users, specific work groups, or entire organization
- Automatically detects and identifies Web abuse
- Produces categorized manager-ready reports
- Tracks bandwidth usage by Web content category

### Reporting Features

- Interactive reports offer quick drill-down capabilities
- Reports are configurable to show only the data you actually need
- Report Scheduler runs and distributes reports automatically
- Distinguishes real user activity from erroneous hits
- Web-use reports are detailed, accurate and actionable

### Administrative Features

- Real Time Monitor gives a live view of Web activity
- Browser interface allows for remote administration
- Logfile Manager updates and displays logfile status
- Data Manager compresses logfile data for faster reporting
- Data Manager lets you export Web-use data to other applications
- Operator accounts allow other personnel to run reports

Top Users' Abuse Report

## Technical Advantages

- Multiple configuration options
  - As a stand-alone monitoring solution
  - Networked with any proxy, firewall or caching appliance
- Easy to install, integrate, set up and configure
- SSL option for maximum security
- Product can be tested offline without affecting company Web usage
- Supports Active Directory

## Compatibility

Operating Systems: Windows 2003/XP/2000/NT

Browsers: Microsoft Internet Explorer 6.0 or higher, Netscape 7.0 or higher, and Mozilla Firefox

## Pricing

Wavecrest's Cyfin solutions offer the industry's best value for Internet monitoring and reporting. Cyfin Proxy is a licensed, subscription-based software product. Pricing is tiered, based on the number of people ("non-concurrent users") to be monitored. In general, the price-per-user decreases as the number of users goes up.

Every Cyfin Proxy purchase includes:

- Free technical support
- Daily URL list updates
- Free product upgrades

Discount pricing is available for government agencies, educational institutions, non-profit organizations, and resellers. For more information, contact sales at 321-953-5351, ext. 3.

## Wavecrest Computing

Wavecrest Computing has provided business and government clients with reliable, accurate Web use management software since 1996. IT specialists, HR professionals and business managers trust Wavecrest's Cyfin® and CyBlock® products to manage employee Internet usage - reducing liability risks, improving productivity, saving bandwidth and controlling costs.

Wavecrest has over 3,000 clients worldwide, including the US Department of Justice, Procter & Gamble, General Electric, Hewlett Packard, Bayer, British Telecom, Edward Jones, Blue Cross/Blue Shield, the US Army and a growing list of global enterprises and government agencies. Wavecrest Computing is a GSA Schedule Contractor. For more information on our company, products and partners, visit [www.wavecrest.net](http://www.wavecrest.net).
