Lexnet Consulting Group Receives Partner of the Year Awards

Sage Software business partner Lexnet Consulting Group recognized as Business Partner of the Year for the SageCRM product line.

San Francisco, CA—October 22, 2007—Lexnet Consulting Group announced today that it has been awarded the prestigious Business Partner of the Year award from Sage Software in recognition of having achieved the highest total sales revenue for the SageCRM product line. In addition, Lexnet Consulting Group has been named to Sage Software's distinguished President's Circle for 2007, a distinction given annually to business partners and national consulting partners generating the highest sales revenue during the previous fiscal year. Lexnet Consulting Group is a premier CRM solutions provider with offices in California and Georgia.

"It is rewarding to be recognized for the hard work and dedication our team puts forth every day and for every client," stated Steve Chipman, president of Lexnet Consulting Group. He attributes the company's overall success to a consultative selling approach and to its highly experienced team of professionals. "We are highly focused on delivering solutions—not simply selling software. Our customers appreciate that, and value our experience and expertise implementing CRM solutions and best business practices."

"Each year, Sage Software recognizes and awards top Business Partners who excel in sales revenue," said Bob Neeser, vice president of sales at Sage Software. "Lexnet Consulting Group has distinguished itself among its peers in two categories. First, from among a group of more than 400 CRM Business Partners in North America, Lexnet is one of the Sage Software Top Ten CRM partners overall for our Fiscal Year ended September 2007. In addition, by achieving the highest total sales revenue for the SageCRM product line, Lexnet is our Number One, top producing North American Business Partner for SageCRM. We congratulate Lexnet Consulting Group for their outstanding performance, and wish them continued success in 2008."

"Increasingly, companies are realizing that they can enjoy the benefits of a browser-based CRM solution without the 'forever payments' of multi-tenant offerings," said Chipman. "With SageCRM 100 and 200, companies can take full ownership and control of their CRM and host it either internally or externally on a managed server."

###

About Lexnet Consulting Group
