Emerio Corporation Steps Up Investment in Malaysia

Planned expansion will broaden the company's global support capabilities

Kuala Lumpur, 31 October, 2007 – Emerio Corporation, a leading IT services provider, today announced its plans to expand its operations in Cyberjaya, Malaysia, the nucleus of the Multimedia Super Corridor (MSC). This was disclosed at a signing ceremony graced by Emerio's Chief Executive Officer, Harish Nim, and Dato' Badlisham Ghazali, Chief Executive Officer, Multimedia Development Corporation Sdn Bhd (MDeC). Emerio Corporation celebrated its 10th anniversary earlier this month.

As part of the company's expansion plans, Emerio has acquired 5.1 acres of land in the heart of Cyberjaya and will build its Global Delivery Campus, adding much needed capacity to cater to the increasing worldwide demand for its services.

On the selection of Malaysia for its first Global Delivery Campus, Mr Harish Nim commented, "Cyberjaya in Malaysia without doubt, is one of the best locations in the region to host our campus. The excellent infrastructure, support from the government and MDeC, favourable business environment, and a growing talent pool are just some of the reasons for our choice. Our Global Delivery Campus in Cyberjaya will be a key component in our global delivery framework".

In 2008, Emerio will unveil Phase I of its environmentally aligned campus. The 100,000 square-foot centre, located on the campus, will house state-of-the-art facilities for Infrastructure and Application Management Services, a Datacenter, R&D labs, and

Centres of Excellence (COE). In addition, the campus will encompass chill-out spaces, a gym, recreational areas, and a multi-purpose sports facility.

Collaboration with local educational institutions is also underway with the aid of MDeC and the Knowledge Development Institute (KDI). Emerio plans to participate actively in talent development initiatives while employing and training fresh graduates.

Emerio in Malaysia has a workforce of over 700 employees. The company hires locally, tapping Malaysia's extensive talent pool of IT professionals and graduates. Emerio also hires world-class talent from overseas for specific skill areas.

In Malaysia, Emerio is focused on Infrastructure and Application Management Services, and has been in operation since 2003. The company plans to expand its service offerings from its Malaysian campus progressively. Emerio Malaysia's Managing Director, Stephen Aranha, expressed his enthusiasm on developments on the Malaysian delivery centre saying, "Our Malaysia operations have seen unprecedented growth, and we are quickly ramping up to cater to the demand. This is truly a destination of choice – both on the professional and personal fronts."

Construction on the campus is expected to be completed by September next year.

About Emerio Corporation

Emerio Corporation (www.emeriacorp.com) is a rapidly growing global consulting and IT services company headquartered in Singapore. With its focus on Systems Integration and Managed, Software and Professional Services, the company adds value to its customers' businesses by combining and implementing the latest technologies and services. Today, Emerio is supported by 1300 employees spread across 14 countries (Australia, China, Germany, Hong Kong, India, Malaysia, Indonesia, Pakistan, Philippines, Singapore, Switzerland, Thailand, UK and USA). Emerio's track record of successful deliveries has been the single pivotal factor for its growth - reflected in its customer retention track record, with over 80% repeat orders. Since its inception in 1997, some of the world's leading companies in varied industries like financial services, logistics and manufacturing have leveraged Emerio's globally networked delivery model to maximize their returns.
