## Plus Computer Solutions Receives Channel Elite Award

### Sage Accpac Business Partner, Plus Computer Solutions, recognized by Computer Dealer News

---

**Burnaby, British Columbia—December 3, 2007—** Plus Computer Solutions Ltd. announced today that it has been awarded the prestigious Channel Elite Award from Computer Dealer News, Canada's number one IT channel publication, in the category of Best Small Business Solution. The award was presented in recognition for the company's superb business management solution for its client MSS Ltd., a medical supplies provider located in Hay River, Northwest Territories.

The award honours the partner that has created the most innovative and problem solving hardware, networking, online or software-based solution for an organization or department with up to 100 seats using the solution. The Channel Elite Awards has been rewarding solution providers who have distinguished themselves in the IT industry since 2002. Awards are given in seven unique categories to channel partners for delivering innovative and problem solving solutions during the prior 12-month period.

"Our goal is to provide clients with technology solutions that deliver ongoing business value," stated Glen Mund, president of Plus Computer Solutions. "We're proud to be recognized for the accounting and eCommerce solution we developed for and with MSS Ltd."

The solution Plus Computer Solutions developed for MSS Ltd. includes a powerful eCommerce site, fully integrated with the company's Sage Accpac ERP accounting system. Plus Computer Solutions completely assembled the new eCommerce server at its office location, shipping the fully-configured system to MSS's remote location. MSS was able to simply plug the server in and begin accepting orders almost immediately. Routine upgrades and system support are delivered via a secure Internet connection, saving MSS the expense of bringing a consultant on site.

As a result of the efficiencies of the solution, MSS is saving the cost of two full-time personnel, an estimated \$100,000 annually. The substantial labor savings combined with the upsurge of orders meant the project paid for itself in less than one year.

"The assistance and advice we receive from Plus Computer Solutions has enabled us to streamline operations, increase our profits, and improve our financial management," said Doug Swallow, president of MSS Ltd.
