Features:

- Rugged, versatile, high strength with low weight.
- The ultimate tensile strength is two and a half times the strength of a standard 1/4" proof coil chain.
- Same link size as standard 1/4" grade 30 Proof Coil Chain.
- Easily works with existing 1/4" chain hardware.
- SECOA Theatrical Chain (STC™) is made from alloy steel for superior performance and strength.
- Working load limit of 3,250 pounds.
- Complies with OSHA 1910.184(e)(5) – Sling use.
- Lot traceable. Every tenth link has a coded date stamp for quality assurance.
- Proof Tested. Every link is proof tested to twice the working load limit.
- Each link is embossed with "STC" for identification.
- Yellow iridescent chromate finish for easy identification.

Benefits:

- Safe, reliable and economical.
- High working load limit for safety.
- Easily identifiable in the field.
- Lot traceable.
- Proof Tested.
- Retrofits easily into existing systems for added safety.
