# Are you an accident waiting to happen?

**If so, you need to know the facts about the Emergency Department at Oconee Memorial Hospital:**

- We're the only ED in South Carolina to have achieved ISO-9001 certification, an internationally-known symbol of excellence.
- Unlike many hospitals, at Oconee Memorial all of our ED physicians are Board-certified in Emergency Medicine. That means they're emergency specialists.
- We're closer than you think, especially when you consider that you won't have to drive through urban sprawl or downtown traffic. And when you arrive we'll see you quickly and with a dose of small-town caring that you can't find everywhere.

So the next time you or a loved one needs emergency care, make the smart choice. Come to Oconee.
