Management Action Program Names Corporate Services a Presidential Award Recipient

*Recognizes business excellence through MAP's proven program
to drive performance and accountability*

Baton Rouge, LA – February 22, 2008 – Corporate Services LLC, developers of TrakQuip™ and RTMS, the premier equipment and rental software applications, is proud to be a recipient of Management Action Programs (MAP), Inc.'s Presidential Award.

The MAP Presidential Award is an annual recognition of companies that have achieved business excellence by utilizing the MAP Management System™. They were selected based on the implementation of the system throughout their organization, significant improvements of factors that contribute to sustainable business growth and the establishment of clear and effective leadership.

"I was proud to give this award to Corporate Services," said MAP senior consultant and Corporate Services' business coach, Jim Wichterman. "Their willingness to embrace the MAP process has yielded them fantastic results, including a 43% increase in revenue over last year." Corporate Services was one of 10 companies recognized out of nearly 500 of MAP clients.

"By implementing the MAP process, we have been able to reach goals that we absolutely would not have achieved otherwise," said Michael Saint, Corporate Services' president. "We have learned how important it is to work 'on' our business instead of always 'in' our business."

The MAP Management System™ includes monthly meetings to be sure strategic initiatives are implemented and refined at all levels of the organization while following a defined and proven methodology.
