 Friday, April 18...8:00am - 11:00am

If you've ever been interested in the Self Storage business, you won't want to miss this workshop!

Steve Case and Corey Donaldson, authors of the groundbreaking home study course, **The Secrets of Self Storage Investing**, will share their secrets to turning these lucrative investments into cash flow machines while simultaneously achieving a tremendous growth in equity.

Attend this exciting session to learn how Steve increased his cash flow on his first self storage facility by **\$8K/mo** and sold it for **\$700,000 in profit** in less than 19 months ...and how Corey created **\$750,000 in equity** and **\$6,000/mo** in cash flow on his first facility in just 3 months!

Workshop #2: Owner Carryback Financing
 Friday, April 18...1:00pm - 5:00am

"*Owner Will Finance*" are magic words. Even in a market where institutional interest rates are low, those words will get the phone ringing. Whether you are buying or selling real estates, you need to understand how to get this financing or take back financing yourself without getting taken!

Join Dyches Boddiford for a 4 hour workshop on the secrets to owner financing. He'll discuss the difference in terms and financing you want as a buyer, versus those you want as a seller. He will also demonstrate how carryback financing can benefit the investor who wishes to retire from day-to-day management.

Register by March 31st and attend both Workshops (\$100 value) for FREE!
