

**FOR IMMEDIATE RELEASE:**

## **Vonya Global LLC Establishes Operations as an International Option for Internal Audit and Sarbanes-Oxley Services**

**Chicago, IL, February 6, 2008** – Vonya Global LLC is a newly created consulting firm specializing in internal audit, Sarbanes-Oxley compliance, corporate governance, and independent risk assurance services. Vonya Global's mission is to provide quality consulting services with emphasis on personalized client relationships. Vonya Global provides services to multinational organizations and has the ability to service its clients "locally" through partnering with like-minded audit firms throughout the world. Built for long-term success, the Vonya Global partnership provides its clients with superior service and superior results at a fair price.

Vonya Global was founded by Sargon Youmara, Veronika Fritz, and Steven Randall. Collectively the trio has 45 years of business experience of which 35 have been in audit (internal and external). This team has worked together for the past seven years, refining their client service framework by providing internal audit and Sarbanes-Oxley services to clients around the globe.

Sargon Youmara, Managing Partner stated, "I am most excited about the Vonya Global OnPOINT™ methodologies, which I believe will significantly enhance the client service experience. We are bringing back the "client" in client service. Providing quality work is the first step in excellent client service. Step two is not forgetting that it should equally be matched with good customer service."

Veronika Fritz, Managing Partner added, "I value integrity and quality and it is refreshing to work in an environment where those values are the priority and where clients do come first. I enjoy the hands-on approach and the flexibility to customize our client service to each client's culture and requirements. Vonya Global is in the business to provide quality service to our clients at a fair price."

The requirements of Section 404 of the Sarbanes-Oxley Act of 2002 have stretched the capabilities of consulting firms and dramatically impacted the quality of service. Vonya Global believes that it has the structure in place to fill this void. With operations officially starting in May 2007, the Vonya Global partners have already signed consulting agreements with many multinational companies.
