

What is PRESENT TENSE JAZZ

“When they play, you can just sit back and enjoy the energy as your senses take a much needed vacation.”

~Bob Leggett / Music Connection Magazine

• **PRESENT TENSE JAZZ** is a “Smooth Jazz Jam Band” that brings instrumental compositions into a new era. By blending driving jazz grooves with textures of R&B, rock, funk, and touches of Latin, the ensemble creates a fresh sound that is as sophisticated as it is accessible.

Ronnie Kaufman & Richard J. Frank

• Present Tense Jazz is influenced by Dave Matthews, Chick Corea, Joe Sample, Boney James, Phil Collins, and numerous classic rock and R&B masters.

• Ronnie Kaufman's roots stem from several GAP Band recordings and numerous tours.
