

Witness the birth of a new discipline.

Senior Executives, Learning Professionals, Leadership Consultants, Human Resource Executives, Change Consultants, Educators, Academics, and Executive Coaches are invited to collaborate with some of the world's leading neuroscientists to explore and exchange ideas on today's most important business challenges including:

Driving Change
Managing Uncertainty
Optimizing Performance

Join a group of eminent thinkers and practitioners in integrating relevant neuroscientific research into practical workplace strategies, tools and practices that more effectively address today's most significant leadership challenges.

Specialist tracks include:

- Brain-based leadership development and coaching
- Brain-based systemic change
- Brain-based education

Sponsors:

strategy+business
