

Solar... Solar... Solar

Everyone is Going Solar, Here is Why...

Written by Kelly Dancer
Heliocol

Thank goodness we live in the southwest where we have an abundant source of free energy, the sun. With solar you can heat your home hot water, create your own electricity and even enjoy a warm swimming pool. One thing you will not get from solar is a rising utility bill or rate

“ **Thousands Available In Tax Credits & Utility Rebates & Incentives** ” increase for using this free, friendly and clean energy source. More great

news for utilizing the sun's energy is the Federal Tax Credit of up to \$2000.00 you can receive for installing a solar hot water or PV system on your home. The Solar Tax Credit that took effect on January 1, 2006 coupled with the Arizona Solar Tax Credit of up to \$1000.00, makes this one of the most economically

“ **Pool Owners DOUBLE Their Swim Season: 80 Degrees Up To 10 Months!** ” sound opportunities to have a solar system installed on your home.

Don't miss your opportunity to take advantage of these excellent government incentives. Heliocol (Green Energy, Inc.) is a leading solar hot water and pool solar company with Solar Pool Heating is ranked as the #1 choice for heating swimming pools in Arizona

“Solar For Your Home Or Pool Is Now HOA Friendly”

Home owners can double their swimming enjoyment by utilizing a Heliocol solar pool system. The technology has come a long way. Not only are solar pool systems now very durable and efficient, they are also manufactured in several colors

to blend in w/ community roofs, making them very friendly for

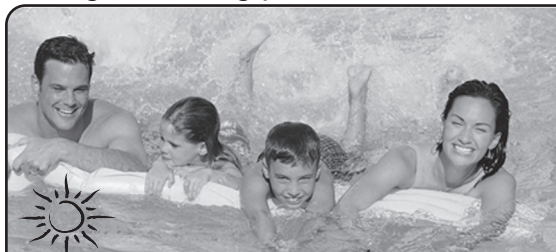

“ **It Ends December 31st LAST CHANCE Act Now Don't Miss It.** ”

residents who reside in communities with associations. For a no-cost estimate on any of Heliocol's Sun-Water-Fun products visit us online at www.SunWaterFun.com or call today **602-454-7000**.

Use solar – Help Reduce Global Warming.
