"One of the features that sold us on Questys was the software's ability to store unlimited documents for one low price. We also liked the ability to customize the solution to fit our unique business requirements."

Mike Flach,
Director of Information Technology,
Bonutti Healthcare

Instant file retrieval at the touch of a button. Imagine every file for your entire business at your fingertips.

Let Questys CM_x Do It All For You

Questys CM_x content management system can scan paper documents, import electronic files and email, then OCR, edit, and store your information in electronic format. You can then search and retrieve everything from your desk, from across town, or from the other side of the world via Questys Web Server. Outputting what you found is easy, too: Just print, fax, email or export information in just a couple of clicks.

Time is Money and Questys CM_x Saves You Both

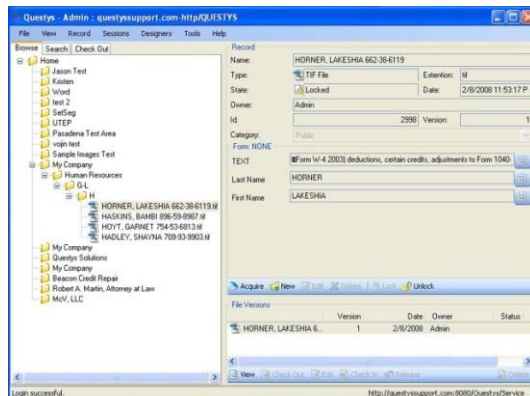

The speed of search, one of the most important factors in any ECM system, is the hallmark of Questys. In virtually all cases, the system will locate a unique search term in less than one second regardless of database size! Compare that to waiting 30 seconds, 5 minutes, 20 minutes...or more!

Get Customized with Questys CM_x's Add-on Modules

Questys CM_x's feature-rich capabilities can be further expanded with add-on modules such as Questys CAP_x (automated data capture), Questys AL_x (3rd party software integration), Questys WF_x (business workflow solution), Questys CD_x (searchable CD), and Questys WEB_x (remote access module).

Feel at Ease with the Familiar Look and Feel of CM_x

Questys CM_x looks and feels like a Microsoft application so the training and application of Questys CM_x into your workforce can be a simple process for you and your whole company.

The Bottom Line

Questys CM_x is imaging. Questys CM_x is Records and Document Management. Questys CM_x is Content Management and OCR, too! So much power packed into one streamlined product. Why wait? Grab hold of your information now!
