

# TextAloud Text to Speech Software

*Popular Text to Speech Tool Lets You Listen on the Go*

**TextAloud** is exciting and easy-to-use software that will quickly become an indispensable part of your life. It's a fast and easy way to save your daily reading or studies or audio files, ready for playback on the go – on your iPod® or PocketPC, in the car, or even on your TV (using Tivo's® Home Media Option).

*TextAloud* installs in minutes, allowing you to catch up on your favorite books or articles, listen to your e-mails, or even listen to written materials for work or study. *TextAloud* features the best in computer speech, with optional **AT&T Natural Voices™**, **Nuance RealSpeak®** voices, **NeoSpeech®** voices or **Cepstral®** voices.

From lawyers to teachers, students, writers, homemakers, and entrepreneurs, to all-around busy people everywhere, *TextAloud* has quickly proven to be an amazing and essential tool they use every day. From the treadmill, to the office, to relaxation time at home, *TextAloud* can help to alleviate eyestrain and allow users to listen to and enjoy, while still keeping up with work or school.

*TextAloud* has been featured in *The New York Times*, *PC Magazine*, *Writer's Digest*, *CNN* and more. A wide assortment of terrific voices, accents and languages are available, so don't wait – try it today!

What you can do with *TextAloud*:

- Sit back and relax -- while your PC does the reading
- Save text to audio files for portable players (it even works with iTunes!)
- Listen and proofread your own writing
- Listen to a report while you're on the go, or at the gym
- Find the perfect tool for someone with a reading or visual disability
- Assist aging friends or relatives with a new way to listen to favorite texts
- Catch up on your reading material (even your e-mails!) on your daily commute
- Work on your language skills by listening to text in other languages
- Memorize for a speech or presentation by hearing the words read aloud

*TextAloud* is priced from \$29.95, and is compatible with systems using Windows® 98, NT, 2000, XP and Vista. For more information, to order, or to download a free trial: please visit [www.NextUp.com](http://www.NextUp.com)!
