FAST AND ACCURATE QUOTES ACROSS ALL SALES CHANNELS

SmartCatalog™ delivers proven sales configuration and guided selling solutions extending fast, accurate quotes and orders directly from Microsoft Dynamics CRM to all sales channels – including employees, partners/distributors and customers. SmartCatalog™ helps companies around the world leverage their Dynamics CRM deployments to increase revenue, reduce cost and increase customer loyalty.

Product Configuration and Bundling

SmartCatalog™ eliminates the complexity involved in correctly configuring a customer's solution by enforcing product configuration and bundling rules during the quoting process.

Pricing

The SmartCatalog™ rule engine enables complex pricing scenarios, consistently and accurately enforcing sophisticated rule-based pricing strategies, including geography, channel, quantity, effective date, margin and other parameters.

Guided Selling

Guided Selling intelligently walks users through a set of questions to determine the customer's specific requirements, preferences and priorities.

Proposals

SmartCatalog™ provides a summary of the entire sales process in a professional, branded proposal.

Rule Manager

The SmartCatalog™ Rule Manager provides an easy-to-use user interface for creating product catalogs, authoring product/service/bundling/pricing rules and managing guided selling wizards. The Rule Manager empowers business users with the product and market intelligence to quickly implement and maintain SmartCatalog™ significantly cutting down on the time-to-market and administrative costs.
