Secure vacant properties

New doors are often kicked in again

Install full kit in less than an hour!

Repair existing damage

Security that works

BURGLARS
JEALOUS SPOUSES
VANDALS
TENANTS

ONE KIT DOES IT ALL.

Made of steel and powder coated...
Durable and paintable

Whether you're renovating vacant properties, repairing existing damage or providing your family with increased security, Door Jamb Armor can save you time, money and, possibly, your life. One kit repairs existing damage and reinforces the weak points on your door-jamb and door to help prevent future offenses. Repairing a shattered jamb can take hours, can easily cost more than \$500 and newly replaced doors are often kicked-in again. Proactive security or reactive repair, if you want to eliminate kick-in damage, Door Jamb Armor is the only choice.

PUT AN END TO COSTLY KICK-IN DAMAGE

Hinge Shields
Help prevent hinges from being kicked-in

48 Inches Long

Door Shields
Help prevent door from splitting

Jamb Shield Sleeve
repairs and prevents shattered jambs

Testimonials

"I manage rental homes in the Dayton, Ohio area. Some of the homes have been damaged by people kicking-in the doors. Your glad to say that the Door Jamb Armor held up to it's name and claims, and the shoe marks on the doors were all the evidence we needed!!!

We a while vacant, in addition, it can give our residents peace of mind after they move in! Thank you for an amazing product! It makes my job EASIER! No property should be without it!"
 - Property Manager, Dayton Ohio -

"This is a great product... It Can be used in situations where no other product will work. Had I known about this sooner, we would have used it on every episode. I'm sold"
 -Frank S., Security consultant for "It Takes a Thief"-

"Hey, I just want to let you guys know that the installation went just as easy as you described and finished in less than a hour. I travel a lot and the piece of mind that I have that my wife and possessions are safer put my mind at ease. I am 6'4" 240lbs and I put a couple of whacks in the door that would have taken the old jam out for sure. Nothing I did could budge it. Thanks a bunch"
 - Doug M from Illinois, another satisfied customer -

Door Jamb Armor Installation

Installing the Door Jamb Armor set should not take more than an hour, for any person with reasonable handy skills. Professional carpentry skills are not necessary.

The door in the installation has been removed for illustration purposes only

1. Remove Interior trim. This should take less than 5 minutes on most homes. Do not remove the door!
2. Use a reciprocating saw to cut nails where Jamb Shield will be installed.
4. Use a reciprocating saw to cut nails where Hinge Shields will be installed.
6. Replace trim. Rest Secure.

3. Slide Jamb Shield over Jamb. Pre-drill holes into stud and secure piece with screws (included).
5. Slide Hinge Shield around hinge. Pre-drill and secure.

Patent Pending

Warranty: All Door Jamb Armor products come with a one-year guarantee. If your home is burglarized as a direct result of our product failing, we will pay your homeowner's insurance deductible (up to \$200). We stand by our products as they will stand by you for years to come.

Installation is the same on a damaged or new jamb. Removal, replacement or alteration of the jamb is not required. No routing, chiseling or cutting is necessary, Slide it in, secure it and forget it
