

WiHood: Questions & Answers (Q&A)

1. What is WiHood?
 - a. WiHood is a “virtual laptop” service for children on a WiHood USB bracelet.
 - b. WiHood provides a personal virtual PC desktop on any internet connected PC.
 - c. WiHood includes several software applications and an online web filtering service.

2. Is WiHood only for children?
 - a. WiHood is initially targeting children because of the importance and lack of attention online child protection has received in regards to modern portable solutions that reflect our active children and protects them online
 - b. WiHood is suitable for anyone of any age.
 - i. For example, senior-citizen centers with only one computer can use WiHood to ensure that every resident has their own personal desktop and files undisturbed by other residents. The one lone computer with WiHood would be able to satisfy all of the residents and bring individuality to each of the residents.

3. Is WiHood an actual laptop like what is purchased in a computer store?
 - a. No, WiHood is a non-toxic lead-free silicone bracelet that can be worn around the WiHood user’s wrist. It has a USB port and a memory card that stores the WiHood applications.
 - b. WiHood’s USB bracelet is extremely durable. It can withstand being dropped, slightly soaked, and safely folded inside of a user’s pocket or backpack.

4. How does WiHood’s service work?
 - a. Just plug the WiHood USB bracelet into any internet connected PC and WiHood will automatically launch displaying the WiHood login page.
 - b. Enter your WiHood user name and password that was provided when you subscribed to WiHood.
 - c. That’s it! You child is now using their own virtual PC and protected from harmful internet content.

5. How much does WiHood cost?
 - a. The WiHood USB Bracelet cost \$24.99 (USD).
 - b. A 6-month subscription to the WiHood service costs \$49.99 (USD).
 - c. Note:
 - i. WiHood’s subscription price is the **same price** as the average Playstation or Nintendo Wii games.
 - ii. For the **same price** as a single computer game, for 6-months parents can protect their children online, anywhere, and provide their children with the latest IT technologies using WiHood.

6. Why would children use a WiHood USB Bracelet?
 - a. WiHood is every child's personal "virtual laptop". WiHood is where they store all their favorite photos (friends, animals, family, etc.), music, homework, etc.
 - b. WiHood is a complete PC desktop solution. Children can begin their homework with WiHood at school and complete the remainder of their homework at home or the library or at a friend's home.
 - c. With WiHood it is no longer necessary for children to carry a heavy and clumsy laptop that is easily damaged.

7. Does WiHood need another PC to operate?
 - a. Yes, WiHood needs a physical PC with a monitor and internet connection for it to operate.
 - b. WiHood functions perfectly well on older PCs because the WiHood servers located on the internet do most of the work for the WiHood user, not the local PC.
 - c. Older PCs with limited computer resources are excellent for WiHood's service.

8. How does WiHood filter web pages?
 - a. WiHood is very safe for children!
 - b. WiHood filters web pages and content so parents do not have to while their child is using WiHood
 - c. WiHood filters web pages in two ways:
 - i. Real-Time
 1. Every web page that a child visits is checked to protect your child
 - ii. Global Filtering List:
 1. WiHood uses a daily updated global list from the Internet Watch Foundation
 2. The Internet Watch Foundation is the premier non-for-profit organization in Europe that leads is recognized ad the international leader in child protection online.
 3. The Internet Watch Foundation creates a global filtering list from an international cumulative list gathered from many of the governments throughout the world who are continuously checking their own nation's servers for inappropriate content that would be harmful for children

9. How does WiHood protect the parent's PC while the child is using WiHood?
 - a. WiHood is an online virtual desktop that functions all of its activities online, not on the parent's PC. So the child will be using their own applications and services provided by WiHood, not the PC of the parents.
 - b. The parents PC files and applications remain untouched while the child is using WiHood

10. Why should parents purchase WiHood for their children?
 - a. WiHood was created by its Founder and CEO of WiHood, Thomas F. Anglero. Mr. Anglero is a father with 15+ years of internet experience that created the WiHood service for his children and the children of the world.
 - b. WiHood helps parents who do not have the time to always sit next to their children while they are online but yet is so easy to use that most 7-year olds learn how to use WiHood within a matter of minutes by themselves.
 - c. WiHood is icon based so it is very easy for any child to quickly learn how to use WiHood service.

11. If a child loses their WiHood USB Bracelet are their personal files lost?
 - a. No, WiHood does not store any WiHood personal information on the WiHood USB bracelet.
 - b. All of the child's personal information is stored on WiHood's servers online.
 - c. No information from the child is lost!
