Unison™
Work as One™

Collaboratively Create Interactive eLearning from Anywhere

Built on the Rapid Intake® collaborative eLearning development platform, Unison™ is a web-based solution that lets designers and subject matter experts (SMEs) collaboratively capture, storyboard, develop, review, test, and publish Flash®-based courses—without having to know Flash.

Novice users and content owners simply fill out form-based templates to create interactive Flash-based courses, while advanced users and communities create reusable custom templates by accessing the Flash source code (.fla).

Project-based subscriptions start at $49 per month, enabling entire teams to work together at a lower cost. All output is SCORM compliant, rich-media compatible, and works on most PC and Mac browsers.

Rapid Intake®
Open eLearning for Everyone™

Unison™
Work as One™

Unison™ is a web-based solution that lets designers and subject matter experts (SMEs) collaboratively capture, storyboard, develop, review, test, and publish Flash®-based courses—without having to know Flash.

Now all your SMEs, designers, and reviewers can work together on courseware through a secure web interface that provides simple tools to create rich interactive eLearning content without stepping all over each other.

The Highest Service and Security in the Industry
Rapid Intake was ranked as the most responsive rapid eLearning development tool vendor by the eLearning Guild 2007 Market Research Survey.

Unison was designed from the outset to be categorically secure. The application has been certified as safe by the experts at SecureWorks®, the same company used by many financial institutions to certify the security of their web applications. With a secure data center and the highest levels of encryption, you never have to worry about your information being compromised.

THE eLEARNING GUILD Research

SecureWorks®

Capture

Streamline content collection

Improve content quality with SMEsync™ templates

Oversee SME input in real time

Storyboard

Reduce development time

See content in true context

Align expectations earlier in the process

Develop

Collaborate simultaneously from anywhere

Fill out templates to create Flash courses or customize the source code

Review

Review in tandem

Collaborate in threaded discussions

Reduce review cycles

Test

Track bugs and issues as they surface

Auto-capture bug locations

Fix bugs quickly with direct links

Publish

Publish to any SCORM LMS

Download to CD

Provide instant access

Effective Learning
Most eLearning solutions rely on bland, PowerPoint-style presentations that cause even the most motivated employees to tune out.
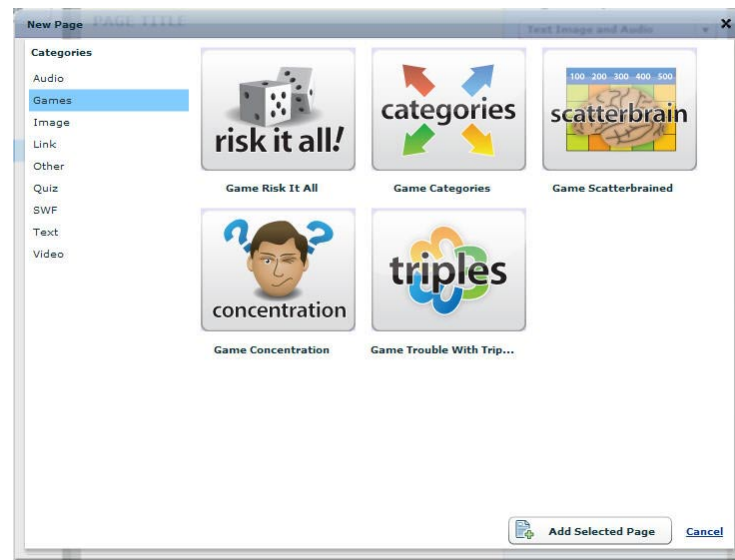

With Unison you can create engaging
- Quizzes
- Tests
- Learning Games
- Simulations

The Easiest Solution in the Industry
You don't need to be a Flash developer to create effective Flash courses with Unison.

Our form-based templates walk you through each step and make it simple to see your design become a reality. Unison requires no software or hardware setup or maintenance. All you need to do is log on and get started.
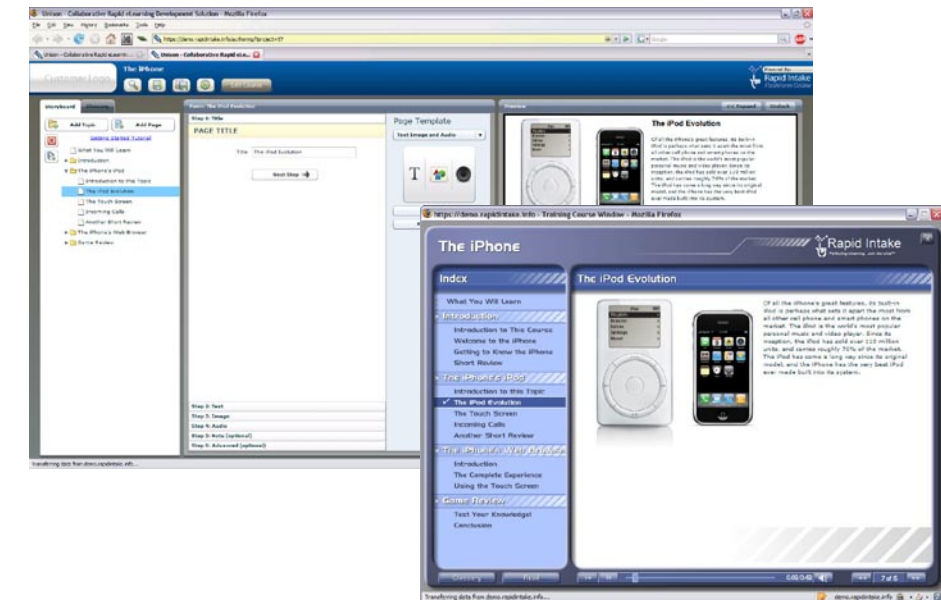

Unison always shows who else is working in the project and prevents you from accidentally overwriting anything they are working on.

More for Less
Our unique licensing model allows everyone in your organization to use Unison.

With subscriptions starting at **$49 per month**, your entire team can work together at a lower cost. Besides saving money, you'll also save time and energy because Unison makes creating e-learning courses as simple as filling out forms.
