**Dallas, TX – May 27, 2008** – Terrell & Terrell CPAs, LLP, a leading professional services firm, will offer Sage Accpac version 5.5 to clients and prospective clients. To help educate clients on the value of the new features of the release, Terrell & Terrell will host a series of informative lunch and learn sessions in June and July in their Dallas office.

The latest version of Sage Accpac, version 5.5, offers new features and functionality to the already robust ERP solution. Most significantly, SageCRM now will be part of Sage Accpac. SageCRM includes sales, marketing and customer service components. "With the tight integration of Sage Accpac and SageCRM, clients will have a complete view of their customer information," said Brian Terrell, CPA and president of Terrell & Terrell. "Duplicate data entry is reduced, workflow is more efficient and everyone in the company is using the same information, which ultimately improves customer service."

Additionally, Sage Accpac 5.5 features dashboards that allow for more-informed decisions; multicurrency revaluation that ensures compliance with currency translations standards in other countries; and the addition of several Sage Accpac Options features are now part of the standard Sage Accpac product.

Version 5.5 will be available to all Sage Accpac clients who are on a current Sage Software maintenance plan at no charge. The product is currently shipping.

Clients are invited to learn more about the features of Sage Accpac version 5.5 by joining Terrell & Terrell for an informative lunch and learn session.
