

Stage 2 Challenge

Complete this challenge to get your stage 3 clue:

Smoking cigarettes and breathing secondhand smoke are a real drag on your lung capacity. Using the attached tickets, enter the park and take a ride that will help you feel what it's like to lose your breath.

There are two rides to choose from, but only one will have a race official at the end waiting with your next clue. So, as with any decision to use tobacco, choose wisely...
