

Advanced Spatial technologies

Integrated Solutions for Managing Facilities and Workplace

AutoCAD® Beginners & Intermediate Training (Course no :103)

Established in June 1995, **Advanced Spatial technologies Pty Ltd (AS^t)** is a leader with world-wide recognition in providing technology solutions using Autodesk® products and sustaining these solutions by imparting quality training and support.

Curriculum

At **AS^t** we offer standard product training based on Autodesk® authorised training guides. We also offer customised training to meet specific client needs.

Our AutoCAD® training* covers Beginners and Intermediate levels. Some of the topics covered in the training include ...

- Navigating the user interface
- Creating and editing blocks
- Organising drawings
- Manipulating and editing objects
- Annotating drawings

*Duration of training:

3 full days/6 half days/customised to suit

Objectives

After completing this course you will be able to...

- Navigate and use the AutoCAD® interface
- Select, modify and adjust object properties
- Create and manage layers and properties
- Create and edit annotations

- Create, edit and manage dimension styles
- Create and use page set-ups
- Create and use drawing templates
- Enhance your drawing visual appearance
- Plot your designs from layouts and model space

Training Facilities

Our training centre is located at the **AS^t** office in Perth. We provide the following...

- Individual PC with appropriate pre-loaded software and small group size
- Adequate stationary
- Demo CDs to practise
- Complimentary Autodesk® take away
- Morning/afternoon tea and lunch

We can assure you of a well paced and delivered training package to suit your specific requirements.

For further information on course content and pricing please contact Candaline Nigli on (08) 9367 2888.

Alternatively we can carry out training at your office. Please call for details
