

With top-notch production, real lyrics and songs that contain no sampled music, this Latin beauty is creating a buzz with her heated tracks. *Jodi V's* debut song set *Seed Of Love* is a street-wise blend of pop with hip-hop appeal to it. Jodi's voice is sultry, smoky, sexy and as real as it comes. On *Seed of Love*, Jodi V. shows an impressive musical range from the street hip 'love-gone-wrong' of *Crazy Chick* which has received regional mix show spins in Texas and Nevada to *Uh Oh* which radio is already embracing. This slamming single features a club-banging beat with Jodi's taunting and teasing, almost "too hot for radio" line, "You want it...I got it." Future chart toppers also include *He Ain't Everything* a slamming rhythmic track produced by Fingazz, who recently landed a top ten hit with *Lean Like A Cholo*. David Salas, known for his major label, Latin music compositions, produced *Let Go*, a crossover ballad with 808 booms, guaranteed to shatter any already broken heart. *Jodi V's* current street and on-line presence will definitely move units. Jodi describes her music in simple, one-word phrases. "The songs," she says, are "inspiring, bright, soulful, comforting, rhythmic, emotional, real and sincere." *Seed Of Love* is all those things and more.
