LOCATION ENABLED

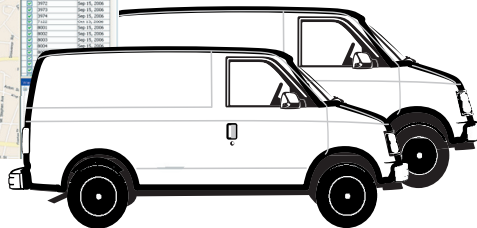

MOBILEField Service Management

INCREASE FIELD SERVICE PRODUCTIVITY UP TO 25%

AppLocation Systems' complete solution for mobile field worker and service fleet service management includes dispatching the best qualified person to the correct location and tracking sensed vehicles, GPS enabled handsets, lone worker safety – all fully integrated to your financial system for immediate invoicing, inventory and time card approvals.

OPTIMIZE OPERATIONS FOR COMPETITIVE ADVANTAGE

Whether your need is for:

- Fleet mapping, tracking, parking, dispatch
- Simple user interface
- Alerts, notifications, history, reporting
- Auto-fill mobile forms; forms for regulatory compliance
- Time sheet and payment
- Inventory control
- Lone worker safety

We provide the glue to bring it all together and get the communication going – Seamlessly .Designed for maximum flexibility, end to end field service and operations visibility including location based services and mobile forms compatible with commonly used handsets and integrated into your ERP. Scalable, web-based MOBILEFusion™ Asset Tracking Logistics platform improves your business decisions—wirelessly by utilizing the latest in satellite, CDMA, GPRS, RFID, RTLS, LBS, mapping, sensors and network management technologies.

MOBILEField Service Management provides an overview of worker and service trends plus the ability to dig deeper into the data from a variety of input sources.

Typical results are:

- 50% reduction in after-hours, private vehicle use
- 15-25 % increase in service order completion

Benefits of MOBILE Field Service are:

- Reduction in fuel costs & vehicle wear & tear
- Optimized routing, job assignment & yard time
- Faster, more effective response to priority tasks
- Improved communication with field staff
- Improved performance and supply metrics
- Machine generated Service Level Agreement compliance reporting
- Follow up on service calls / completed tasks achieved without taking field staff off line
- Improved customer service and communication
