Browse through Medications in one or more of the Retail Prescription Drug Programs

If you know the name of a specific retail discount drug program (such as Wal-Mart or Kmart) and wish to browse through the prescription medications in that discount drug plan, simple click on the [Search By Retailer](#) link.

If you wish to see all of the medications that fall into one or more drug discount program, [Click on the "Drugs in at least one Retailer Discount Drug Program](#) link.

Prescription drugs will be listed alphabetically by drug usage category. You can click on a drug

name for more information.

[:: Click here to Browse the Discount Drug Lists by Retailer](#)

[:: Top](#)

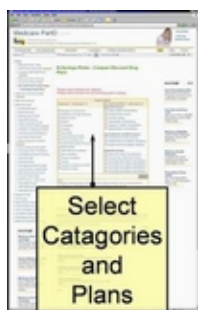

Browse through the discounted Prescription Drugs by Drug Usage Category

We also have provided the ability to browse through the discounted prescription drugs by choosing a [Drug Usage Category](#). Examples of Drug Usage Categories include "Heart Health & Blood Pressure" and "Cholesterol" medications.

Please note: The Drug Usage Categories were created as a convenience by the retail discount drug programs and are not meant to duplicate pharmaceutical drug classes or categories. You can click on the medication name for more details.

[:: Click here to browse through the Discount Drug Programs by Drug Usage Category](#)

For Advanced Users: Our RxSavings-Finder

If you wish to search and compare retailer discount drug programs, then our "RxSavings-Finder" is the tool for you. You can search by selecting one (1) to three (3) drug usage categories and one (1) to four (4) retailer drug discount programs. The prescription drugs are listed by drug usage category with prices from the various chosen retail discount drug programs.

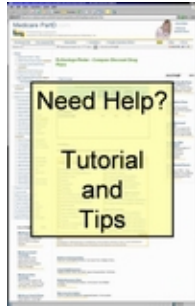

[: : The RxSavings-Finder](#)

Tip: If you are not too sure of how RxSavings-Finder works, just choose only one (1) drug

usage category and one (1) retail discount drug program. Once you see how the prescription drug information is organized, add a second retail discount drug program or drug usage category.
