Tracking and Reporting

Quiz Management System (QMS)

Quiz Management System (QMS) is a **Web-based quiz results hosting and reporting system**, which helps QuizCreator users simply collect, analyze and manage quiz results - track all results data, view overall statistics and items in details effortlessly.

- Collect test data and display meaningful results in summary and details
- Display results report in a professional way, using charts or bars to measure the tests effortlessly
- Manage quiz results and participants in different roles

QMS helps users track test results effortlessly and generate flexible reports. Just in easy 3 steps to start:

1. Make a Quiz in QuizCreator

Easily create Flash-based interactive multimedia quizzes with QuizCreator.

2. Collect Quiz Results to QMS

Publish online quizzes and collect all test results to online reporting system.

3. Manage Statistics in Chart Reports

Comprehensively analyze and manage statistics in intuitive chart report.

Flexible Distribution

Distribute the learning content online or to LMS (Learning Management System)

Wondershare QuizCreator has been OFFICIALLY tested by ADL-Lab and is listed as a SCORM Adopter. Users can use QuizCreator to create quiz content with AICC and SCORM1.2/2004 compliance for hosting under a third party LMS(Learning Management System) or standalone delivery on CD-ROM.

With the support of AICC and SCORM1.2/2004, users could publish the quiz content to Moodle, SharePoint, BlackBoard, EKP and so on. With these LMSs, trainers could easily share their training courses online with learners.

And also LMS helps trainers to manage learner's process and optimize the training courses.
