SolidSpace Unveils a New Website and Redefines Core Service Offering

SolidSpace broadens its core services to strengthen its hosted IT services and remote managed services line

Winston-Salem, NC (PRWEB) September 23, 2008- SolidSpace today announced its enhanced core service offering and unveils a new website to reflect its shift toward providing Managed Services and other IT services via the internet . As more businesses begin to develop operating strategies around hosted applications and Software as a Service models, SolidSpace's new line of Availability Monitoring, Server Health Check and Remote Managed Services provides small to mid-size businesses the tools to affordably maintain these networks and applications.

"SolidSpace has always focused on offering scalable IT solutions backed by unwavering technical support," said Jim Capps, President and CEO, SolidSpace, LLC. "By enhancing our core service offering we can meet the needs of an every changing IT services industry more quickly and efficiently. Remote IT services make data center level expertise available to businesses of all sizes, allowing them to optimize IT budgets and become more competitive"

SolidSpace's new website showcases the recent additions to their Managed Services line, along with a fresh clean style, user-friendly navigation and enhanced customer center. The website's redesign puts critical decision making information at visitor's figure tips, such as a new Frequently Asked Questions section, site search field and case studies.

"The new website not only shares our expanded focus on innovative hosted and remote IT solutions but it also gives visitors a sense of the people who make SolidSpace an awarding winning company for its technical support and mid-size business IT solutions," stated Andrea Rice, Chief Operating Officer, SolidSpace, LLC. "Our customer center upgrades make a busy system administrator's daily tasks easier by providing online support request and remote server access, which is just the beginning of many more advances to come."

-More-

With further IT service innovations already in the planning, SolidSpace will continue aligning itself as a partner to technology driven businesses, making unwavering technical support and scalable, cost effective IT solutions its paramount focus.
