A World Without Terror

For all the people of the world

Complexities of terrorism lying deep beneath the surface of the subconscious mind. That is the making of all this unkind. Children living in caves, hungry and cold, watching the sufferings of family members dying , starving, being shot, being taught hatred and bias; it all took it's toll. Brainwashing of lying radical religions that have nothing whatsoever to do with the brotherhood of Man. Is this really the way the Holy Spirit planned? In balance of resources around our world, selfishness and greed, fighting about what happened in the generations already gone. Terror in childhood , terrorism in adulthood; is that what happened? Frightening feelings , brainwashing and dealings on both sides of the land. Does violence and killing bring forth peace; or does peaceful action bring forth peace? You decide, get rid of your pride, admit your wrongs and then go on , looking inward and upward to the Holy One. What , oh, what would He really do? Stop making this world feel so sad and blue.
