JobOps Announces JobOps Version 4.3

Minneapolis, MN. — Oct. 28, 2008—JobOps, a Job Management Software solution developed for Sage MAS 90 and Sage MAS 200 ERP systems, announced today that it has updated its flagship JobOps Job Management Software to Version 4.3. The latest release is now compatible with Sage MAS 90 and MAS 200 Version 4.3. JobOps is a comprehensive solution for automating job management functions for make-to-order, installation, and field service/repair companies and is the preferred choice for hundreds of North America's small and mid-sized businesses. JobOps Version 4.3 is shipping now.

The new version of JobOps supports Sage Software's Business Insights Explorer and provides users with a single, easy-to-use interface to business-critical and related job information—all the way down to the individual transaction. JobOps users will now be able to get timely access to key business information in a business dashboard-type format allowing users to analyze their business and job-related information to make faster and better business decisions.

JobOps Version 4.3 also supports Sage Software's new Extended Enterprise Suite that combines financial, operational, customer relations and business intelligence applications that seamlessly connect customer-facing processes with back office data.

About JobOps and Synergistic Software
