

Victor

Victor® Multi-Kill™ Electronic Mouse Trap

Instructions

To Set & Place the Mouse Traps:

1. Be sure the trap is in the "OFF" position
2. Insert a small amount of peanut butter in the back of the kill chamber
3. Open battery compartment and properly insert batteries 4 "C".
4. Identify location with mouse activity. Place trap with stair against the wall in an area where activity has been seen.
5. Turn switch to "On." Green light will flash once. Trap is working.
6. Once caught, dispose of rodent in trash receptacle.

CAUTION: Inappropriate use of this product may cause electrical shock, or serious injury. See product warning for additional details.
