VIP Task Manager in German is released

November 19, 2008 VIP Quality Software honors multiple users' request and releases German version of VIP Task Manager, group collaboration software for task management, project management and business process management. The number of German-speaking users increased dramatically in 2008, because in the context of global financial crisis and economy recession the program helps companies to survive by optimization of all their resources.

VIP Task Manager is targeted at *small* and *midsize business*, *government* and *non-governmental* institutes, *non-profit* and *educational* organizations, as well as *project teams*, *workgroups* and company *departments*. All or authorized company employees can simultaneously access the common database to see, add, edit and delete tasks no matter if they work in the same office or at the other end of the world.

Many companies in Germany prefer VIP Task Manager to other task management systems because it allows *planning*, *tracking* and *reporting* tasks, appointments, projects, and any business activities without significant learning curve. The program is useful for both management and staff as it lets managers to customize it according to their business requirements, while for executors it is a simple tool to get assignments and report task results in one click.

From version 1.0 to version 4.0, which is released recently, a lot of useful features were added and improvements were made on requests of product users. At the moment VIP Task Manager offers not only the tool for increasing company productivity and performance, but also business templates and solutions for various industries and departments to achieve their strategic and tactical goals.
