

Emergency Oxygen Unit

It's Always Safety First.

oxyQuik™ provides up to 25 minutes of oxygen, so you won't have to wait helplessly until EMS arrives.

Unexpected events happen...

...at offices, schools, airports... If you serve the public, you must be prepared for every emergency. "The highest possible oxygen concentration should be administered as soon as possible to all patients with cardiac or pulmonary arrest or other patients with suspected hypoxemia regardless of cause."*

You won't believe how simple and easy it is to use!

- Fast and easy One-Touch design
- Refillable oxygen cylinder
- Comfort fit mask for adults and children
- Emergency Oxygen training included
- Dedicated customer support center

Keep one in every public area... and **FIND COMFORT...**

Emergency Oxygen Unit

oxyQuik™ Emergency Oxygen Unit is one of the most important safety preparedness tools everyone should have.

With oxyQuik™ – You're not alone. A dedicated Customer Support Center is at your disposal.

- You will receive quarterly emails alerting you to check the unit, to make sure that the oxygen level is still in the "Green" safe zone.
- We will remind you to review the Emergency Oxygen training material every 24 months.

Call us with questions or browse our website for more information.
