MAPADOC EDI Named A Sage Certified Solution for Sage MAS 500

SWK Technologies becomes the first Gold Development Partner to receive two product certifications from Sage Software.

Livingston, NJ—December 10, 2008—SWK Technologies, Inc. today announced that its MAPADOC EDI solution has been named a Sage Certified Solution for Sage MAS 500 ERP. This is in addition to the certification MAPADOC EDI recently received for Sage MAS 90 and Sage MAS 200 ERP. SWK Technologies, a Gold Development Partner for Sage Software and the publisher of MAPADOC EDI, is the first such partner to receive multiple certifications. MAPADOC EDI is a flexible, scalable, and highly configurable EDI solution that integrates with Sage MAS 500, Sage MAS 90, and Sage MAS 200.

In order to be named a Sage Certified Solution, MAPADOC EDI passed rigorous testing by an independent testing agency ensuring the product meets stringent integration, installation, and documentation standards.

“Unlike other EDI software that simply passes information to Sage MAS 500, MAPADOC EDI is fully integrated into the product. This high level of integration delivers powerful, end-to-end functionality that larger companies working with multiple trading partners demand,” said Jeffrey D. Roth, CEO of SWK Technologies. “We’re pleased and proud that an independent testing agency has verified the quality and functionality of MAPADOC EDI, attributes our customers and business partners have recognized and appreciated for many years.”

About SWK Technologies, Inc.

SWK Technologies, Inc. is an IT consulting company providing strategies and solutions to meet its clients’ information and business management needs. The company has offices in Livingston, NJ, New York City, Long Island, Syracuse, and Buffalo, NY. As a Sage Software Select Partner, Sage Gold Development Partner, and Authorized Training Center, SWK Technologies offers best of breed solutions for accounting and business management, human resources and payroll, customer relationship management (CRM), job management, and warehouse management.
