Outpatient Surgery Magazine

"Dr. Robert S. Bray is one of the world's foremost neurological spinal surgeons."

OR Manager Magazine

"An advanced spine center other surgeons would envy."

Kay Ball, RN, MSA, CNOR, FAAN, Past President of AORN

"I would attribute the success of my surgical procedure to three reasons: A pioneering technique, an adept surgeon along with a proficient team and an ambulatory surgery center geared toward major procedures performed in an outpatient environment."

We Are Redefining Patient Care

Spine and Sports Center

Robert S. Bray Jr. M.D.

CEO and Founder D.I.S.C.
Neurological Spinal Surgery

Now is an exciting time in the development of outpatient care for spinal disorders and sports medicine. Preeminent neurological spine surgeon Dr. Robert S. Bray Jr. founded D.I.S.C., a world-class facility that is redefining patient care. D.I.S.C. provides next generation diagnostics, non-invasive conservative care, pain management and one of the country's most technologically advanced surgery centers. Conveniently housed in one location, our fully integrated approach allows for an unmatched quality of care. The D.I.S.C. team is committed to an unsurpassed level of personal, compassionate care, driven by the most current technology, research and education.

D.I.S.C. features more than 20 board certified physicians,

with advanced fellowship training in their selected specialty. Our team uses a collaborative approach to customize treatment plans for each patient with the goal of relieving pain and restoring function for a healthy and active life.

Our Specialties Include
