Bluetooth®  
Wireless Headphones

HP-01

## Sound without Leashes.

- + Receive high quality audio via Tenqa's HP-01 *Bluetooth* Wireless Headphones when paired with Tenqa's TM series of *Bluetooth* Wireless transmitters for iPod, mp3 players, and home computers or a *Bluetooth* wireless enabled mobile phone combined with a music player and *Bluetooth* A2DP stereo sound technology.
- + Store your Tenqa TM series *Bluetooth* Wireless Transmitter equipped mp3 player, iPod®, portable gaming system, or *Bluetooth* enabled mobile phone with A2DP technology in a convenient location while working out, jogging, riding your bike or commuting to keep tangled wires out of sight.
- + Device controls change music track, headphone volume, and also handle mobile phone calls via the built-in microphone.
- + Sleek, comfortable design wraps around your head and receives music wirelessly. Annoying wires are nonexistent.
- + When connected with a *Bluetooth* enabled mobile phone with A2DP stereo sound technology, music is paused when a mobile phone call is received enabling the user to answer the call and communicate through the built-in microphone. Upon ending the call, the music automatically resumes where it left off.

## Bluetooth® Wireless Headphones

HP-01

## Product Combinations

### HP-01 paired with Tenqa TM-03 *Bluetooth* Wireless Transmitter for iPod

Receive audio from an iPod equipped with a Tenqa TM-03 *Bluetooth* Wireless Transmitter for iPod adapter and easily turn an iPod into a "remote control" allowing high quality audio to be transmitted wirelessly from an iPod to the Tenqa *Bluetooth* Wireless Headphones from a distance up to 33 feet.

### HP-01 paired with Tenqa TM-02 *Bluetooth* Wireless Transmitter

Receive audio from any mp3 player, computer, portable gaming device, or any audio device with a standard 3.5mm headphone jack connected to a Tenqa TM-02 *Bluetooth* Wireless Transmitter. Music can be streamed from an mp3 player or even your computer's audio player or internet radio to your Tenqa *Bluetooth* Wireless Headphones for great sound quality--even in another room.

### HP-01 paired with *Bluetooth* enabled Mobile Phone equipped with Music Player and *Bluetooth* A2DP technology

By 2011, it is estimated that more than 50% of mobile phones will include music players and ultimately replace the standard mp3 player. In 2007 alone, more than 500 million mobile phones equipped with music players were shipped worldwide. Pairing Tenqa *Bluetooth* Wireless Headphones with one of these *Bluetooth* A2DP wireless technology equipped mobile phones is a simple way to transmit the music stored on a mobile phone.

### Compliance

*Bluetooth* V2.0, Class 2

### Range

Up to 10 meters (33 feet) when connected to a Class 2 *Bluetooth* device

### Controls

*Bluetooth* connection, track forward and backward, volume adjustment

### Power

Rechargeable Lithium Ion battery

### Talking Time/Playback Time/Standby Time

7 hours/6 hours/240 hours

### Certifications

FCC Part 15B and 15C

### Dimensions

4.8 X 5 X 2.9 in (122 X 126 X 74 mm),  
.42oz (50g)

### Package contents

- + Tenqa HP-01 *Bluetooth* Wireless Headphones set
- + USB Recharging Cable

### Profiles supported

A2DP (Advanced Audio Distribution for Stereo Audio)
