Bluetooth®  
Wireless Speaker

SP-01

## Big Sound and Modern Style in an Ultra-Compact Package.

- + Play high quality stereo audio wirelessly on a Tenqa *Bluetooth* Wireless Speaker using *Bluetooth* wireless technology from Tenqa *Bluetooth* Wireless transmitters for iPod®, mp3 players, personal computers as well as *Bluetooth* wireless enabled mobile phones with music players and *Bluetooth* wireless A2DP stereo sound technology.
- + Ultra compact design is the perfect size on a shelf or desktop in the home, office, bedroom, dorm room, or anywhere where full, crisp sound and intense bass are desired in a small package.
- + Sleek, modern design encased in a slick, black enclosure creates a sound comparable to that of much larger, high-end stereo systems—without wires.
- + Additional features include multifunctional graphic equalizer with four display options, FM tuner, clock, temperature gauge, and fully functional IR remote control.
- + Touchpad controls for adjusting volume, track, or mode.
- + SRS® Surround Sound capability creates big sound in a small package.

Bluetooth®  
Wireless Speaker

SP-01

## Possible combinations

### SP-01 paired with Tenqa TM-03 *Bluetooth* Wireless Transmitter for iPod

Receive audio from an iPod equipped with a Tenqa TM-03 *Bluetooth* Wireless Transmitter for iPod adapter and effectively turn an iPod into a "remote control" allowing high quality audio to be transmitted wirelessly from an iPod to the Tenqa *Bluetooth* Wireless Speaker up to a distance of 33 feet.

### SP-01 paired with Tenqa TM-02 *Bluetooth* Wireless Transmitter

Receive audio from any mp3 player, computer, portable gaming device, or any audio device with a standard 3.5mm headphone jack connected to a Tenqa TM-02 *Bluetooth* Wireless Transmitter. Music can be streamed from an mp3 Player or even your computer's audio player or internet radio to your Tenqa *Bluetooth* Wireless Speaker for great sound quality—even in another room.

### SP-01 paired with *Bluetooth* enabled Mobile Phone equipped with Music Player and *Bluetooth* A2DP technology

By 2011, it is estimated that more than 50% of mobile phones shipped will include music players and increasingly replace the standard mp3 player. In 2007 alone, more than 500 million mobile phones equipped with music players were shipped worldwide. Pairing a Tenqa *Bluetooth* Wireless Speaker with one of these phones equipped with *Bluetooth* A2DP stereo sound technology is a simple way to transmit the music stored on a mobile phone to a remote Tenqa *Bluetooth* Wireless Speaker for clear, deep sound in a small package.

### Compliance

*Bluetooth* V2.0, Class 2

### Range

Up to 10 meters (33 feet) when connected to a Class 2 *Bluetooth* device

### Output Power

12W X 2 with SRS surround sound

### Touch Controls

Mode, track and volume adjustment

### Power

AC Cable

### Certifications

FCC Part 15B and 15C

### Dimensions

15 X 6.3 X 7.1 in (38 X 16 X 18 cm)

### Package contents

- + 1 Tenqa SP-01 *Bluetooth* Wireless Speaker
- + 1 AC Power Supply
- + 1 3.5mm audio cable to connect devices without *Bluetooth* capabilities

### Profiles supported

A2DP (Advanced Audio Distribution for Stereo Audio)
