Real-time Analysis and News Limited (Ransquawk) is a voice delivered market analysis, news, commentary and alert service tailored to the needs of the professional trader

What is Ransquawk?

- Ransquawk disseminates market information direct to you via either the Internet or dedicated fixed line / dealer board
- Ransquawk delivers unmatched news, analysis and information flow in real-time in addition to anticipated economic releases and events
- The team at Ransquawk speak to analysts, journalists, brokers and traders worldwide whilst looking at 30 screens of various newswires, independent feeds and multiple TV channels scouring these sources for potential market moving information
- Ransquawk boasts a talented team of analysts with knowledge and experience who are always in touch with the markets and current events

Ransquawk is the benchmark analyst service for the trading industry

- The recent turmoil has taught us that markets do not wait for the facts before making a decision. We at Ransquawk know the value of timely information and we are committed to searching out the news before it becomes a headline.

What markets does Ransquawk cover?

- Ransquawk covers bond, STIR and Index futures along with cash bonds and equities in the US, UK and Eurozone, as well as NYMEX crude oil, natural gas and precious metals. R.A.N has a stand alone FX service which covers all the major currency pairs.
- Apart from the news on the 'squawk box', Ransquawk will also provide your traders the following research:
 - European Opening Sheets: These include a daily calendar and pivots at 0630 GMT/0030 CDT and overnight US, European and Asian news ahead of the Bund open at 0700 GMT/0100 CDT.
 - UK Opening Sheets: These include a full rundown of UK news for the Short Sterling open at 0730 GMT/0130 CDT and Gilt futures open at 0800 GMT/0200 CDT.
 - European Equities Sheets: These include a full rundown of every major piece of news affecting companies in the European bourses ahead of 0800 GMT/0200 CDT.
- US customers also receive 1245 GMT/0600 CDT rundowns of the entire European session in front of the Chicago pit open at 1320 GMT/0720 CDT and full equity rundowns in front of the US stock market open at 1430 GMT/0830 CDT.

Join us today for a **free** trial and learn why 80% of all first time listeners turn Ransquawk into a permanent voice
